

# TWENTY-ONE NEW CONTESTANTS IN VACATION ROSTER

Second Period, to Close on Saturday Night, Arousing Much Enthusiasm.

## NUMBER OF VOTES WITH EACH SUBSCRIPTION CUT

Ballots Piling Up by Thousands: Many Persons Are Nearing Goal.

The standing of the nominees in the vacation campaign today shows some very decided changes in the lineup of contestants.

The votes are beginning to pile up by the thousands and thousands, and the enthusiasm is increasing by leaps and bounds.

Twenty-one new names appear in the list today, which makes a grand total of 340 who are working for a free trip to New York or the Rocky mountains. This is a very important week for the vacation workers, because of the \$100 in cash which will be given away to the five individuals obtaining the largest number of stockholders.

It is also an important week with regard to the closing of the second period, which ends Saturday evening, May 20, of this month. During the remainder of this period there will be 2,000 votes given for each of Times' subscription and 2,500 votes for each El Stockman subscription.

After May 20, and continuing until the close of the contest there will only be 1,000 votes issued with each El Times' subscription and 2,000 for each El Stockman subscription. So it makes it absolutely necessary that every one work hard during the next three days and secure every subscriber in sight. Those nominees living outside of Oklahoma City can mail their subscriptions as late as 6 p.m. Saturday and if they do not reach the Vacation Manager until Tuesday or Wednesday each one will receive the proper credit.

Following is the standing of the nominees showing the position of each up to noon Tuesday.

District 1.

(Includes Custer, Washita, Kiowa, Canadian, Garfield and Gray counties.)

## New Mid-Year Model 26 Extra Features

**Mitchell**  
**SIX**

\$1325 f. o. b. Racine  
127-inch Wheelbase

## Fine Cars Are Costing \$25,000,000 Too Much

John W. Bate—the efficiency engineer—says, "If all fine cars were built as the New Mitchell is built, the makers would save—on this year's output—at least \$25,000,000."

been almost entirely eliminated—supplanted by tough, strong steel.

The Mitchell today is the only car in the world with 440 drop forgings and steel stampings.

### Ask Any Authority

Ask any authority. If he knows this car he will pronounce it an engineering marvel.

We have a list of 37 engineers—men in the first rank of the engineering profession. All of these men have selected the Mitchell for use as their personal car. Our dealers have the list.

We also have a record of six Mitchell cars which have averaged, in the hands of owners, 164,372 miles each. Over 30 years of ordinary service.

Those are other results of these Bate efficiency methods.

### Pays for 26 Extras

The Mitchell factory savings pay for 26 extras found in this Mid-Year Mitchell.

That is, things you want and need. But things you can't get in other cars without an extra price. The costliest car doesn't have more than four of them.

Things like a power tire pump, Bate cantilever springs, reversible headlights, ball-bearing steering gear, dashboard engine primer. The Mitchell has everything in-

vented to add attractions to a car.

It means the loss through buying parts which the Mitchell factory makes. And the fearful loss through wasteful factory methods.

It tells how efficiency can give a car like this, equipped like this, at the Mitchell price. And no other feature talked today is so significant.
